BioTime 8.0

Powerful Web-based Time and Attendance Management Software

BioTime 8.0 is a powerful web-based time and attendance management software that provides a stable connection to ZKTeco's standalone push communication devices by Ethernet/Wi-Fi/GPRS/3G and working as a private cloud to offer employee self-service by mobile application and web browser.

Multiple administrators can access BioTime 8.0 anywhere using a web browser. It can easily handle hundreds of devices and thousands of employees and their transactions. BioTime 8.0 comes with an intuitive user interface that is able to manage timetable, shift and schedule and can easily generate attendance report.

BioTime 8.0 Online Demo, Please Click Here
(User Name : admin ; Password : admin)

Global Rule & Local Rule Integration

BioTime is a powerful time & attendance software which can set up various attendance rules that are applicable for the whole company, individual departments, individual attendance group. Users can set the attendance parameters like check-in, check out, overtime rules, rule for non-scheduled days

Rule for Non-scheduled Days

Rule for Non-scheduled Days is for personnel who are not specially assigned a schedule but have attendance punch records; then, the software will calculate the personnel's attendance according to the rules set.

Overtime Rule

Overtime can be set to "Disable Overtime", "Calculation OT", "Approval OT" and "Approval OT Priority"

- Disable Overtime: Disable the overtime function
- Calculation OT: Calculate the overtime based on the punch time
- Approval OT: Calculate the overtime based on the overtime application
- Approval OT Priority: Preferentially calculate the overtime on the overtime application

Missing Check-In and Check-Out Time

When there is no Check-In record, the result can be set as "Late" or "Absent"

When there is no Check-Out record, the result can be counted as "Early Leave" or "Absent"

Australia Office Rules Office Hour: 9:00am - 5:00pm

Check In : 11:00am Check Out : 5:30pm	Check In : 9:30am Check Out : 5:10pm	Check In : 10:00am Check Out : 5:10pm	Check In : N/A Check Out : 5:10pm	Check In : 9:00am Check Out : 5:10pm	Check In : 9:00am Check Out : 5:10pm
LATE	EARLY LEAVE	LATE	ABSENT	On-Time	On-Time

Web-Based Time & Attendance Software

Users can access the centralized system anywhere by their web browser to remotely manage thousands of T&A terminals under the complex network (WLAN).

Auto-Synchronization of Palm, Face, Fingerprint, and Card Templates

Automatically synchronizing the data between devices and the server within the same "Area" to ensure the information is updated.

Embedded HR Integration

BioTime is a platform which can be integrated with ERP and HR software to do synchronization using API or database middle table.

new

Multiple Scheduling

Software administrator can assign flexible scheduling, auto shift scheduling, department scheduling, group scheduling, temporary scheduling which support cross -day timing to the employees.

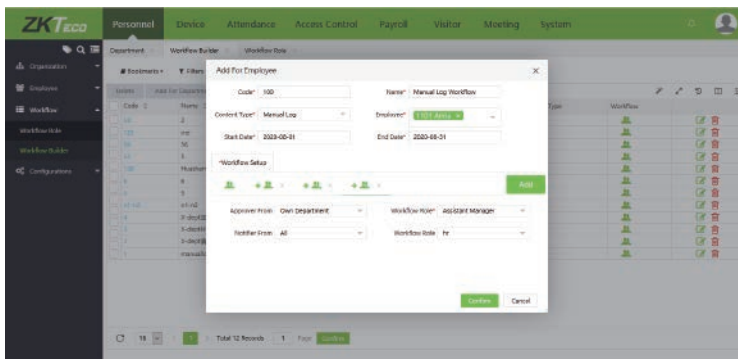

- Multiple Timetables
- Overtime Level
- Cross Day Shift
- Flexible Shift
- Auto-Shift
- Shift Cycle

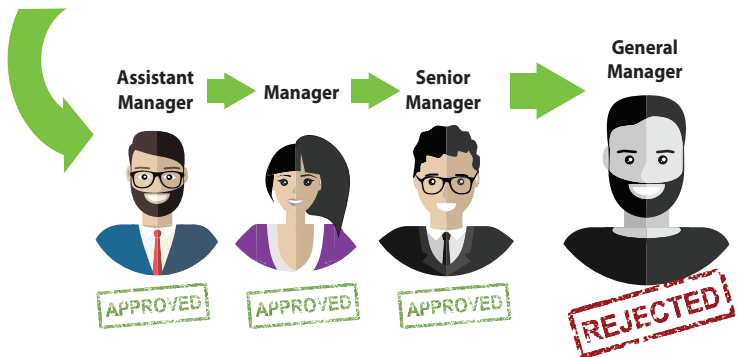

Multi-Level Approvals and Automatic E-mail Alerts

Leave, manual punches, overtime, schedule adjustment, meeting and other events can be applied through BioTime, which will then be approved by multi-level approvers who are set by hierarchal level.

E-mail notifications about the application are sent to the authority with power to approve.

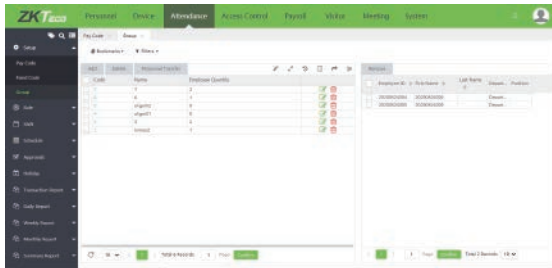

new

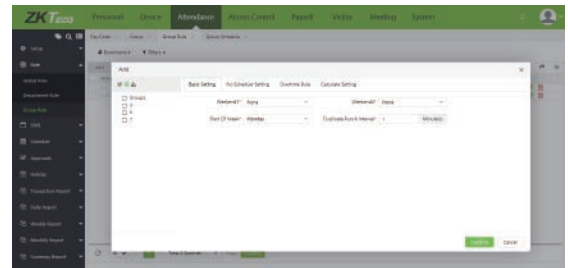

Attendance Group

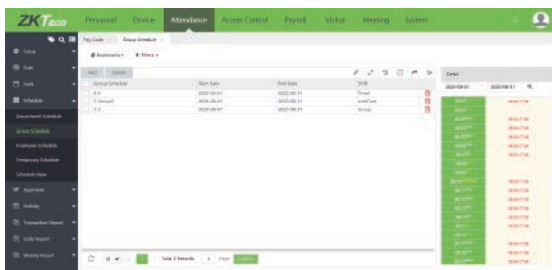

Users can assign personnel who have same time schedule and from different departments to the same attendance group, set group rule and assign schedule for the group.

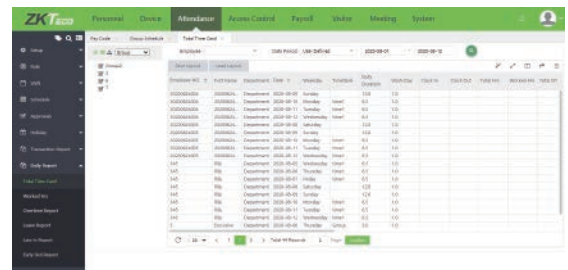

Define Attendance Group

Set Group Rules

Group Schedule

Group Attendance Calculation

Rule Priority : Group Rule > Department Rule > Global Rule

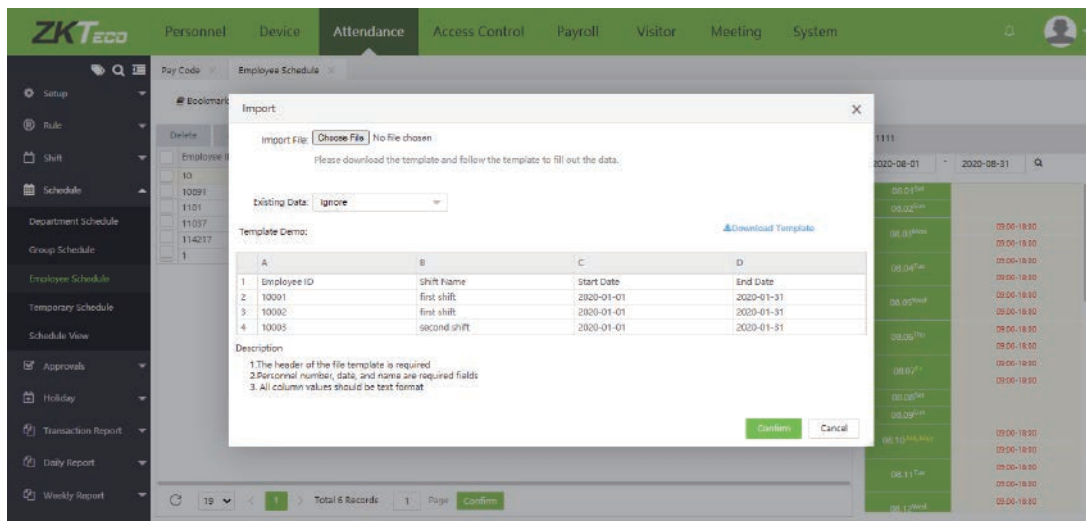

Schedule Priority: Temporary Schedule > Employee Schedule > Group Schedule > Department Schedule

new

Batch Import Function

Users can refer to the import template, input the data and import employee schedule, temporary schedule, application of manual log, leave, overtime by batch.

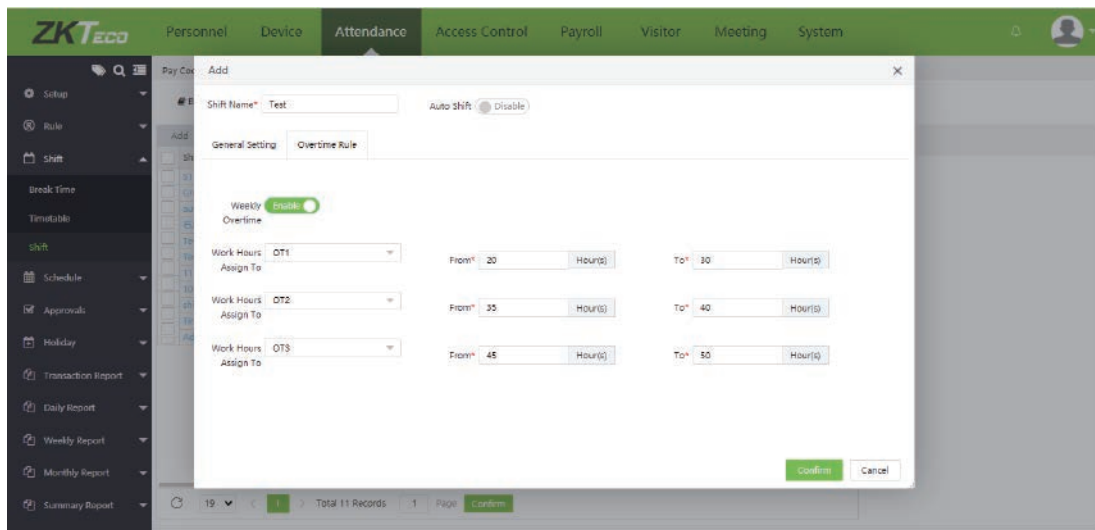

new

Weekly Overtime Calculation

Only when the weekly accumulated work hour exceeds the minimum hour of the set work hour range, the software will start to calculate the overtime of the personnel.

Attendance Reports and Calculation

new

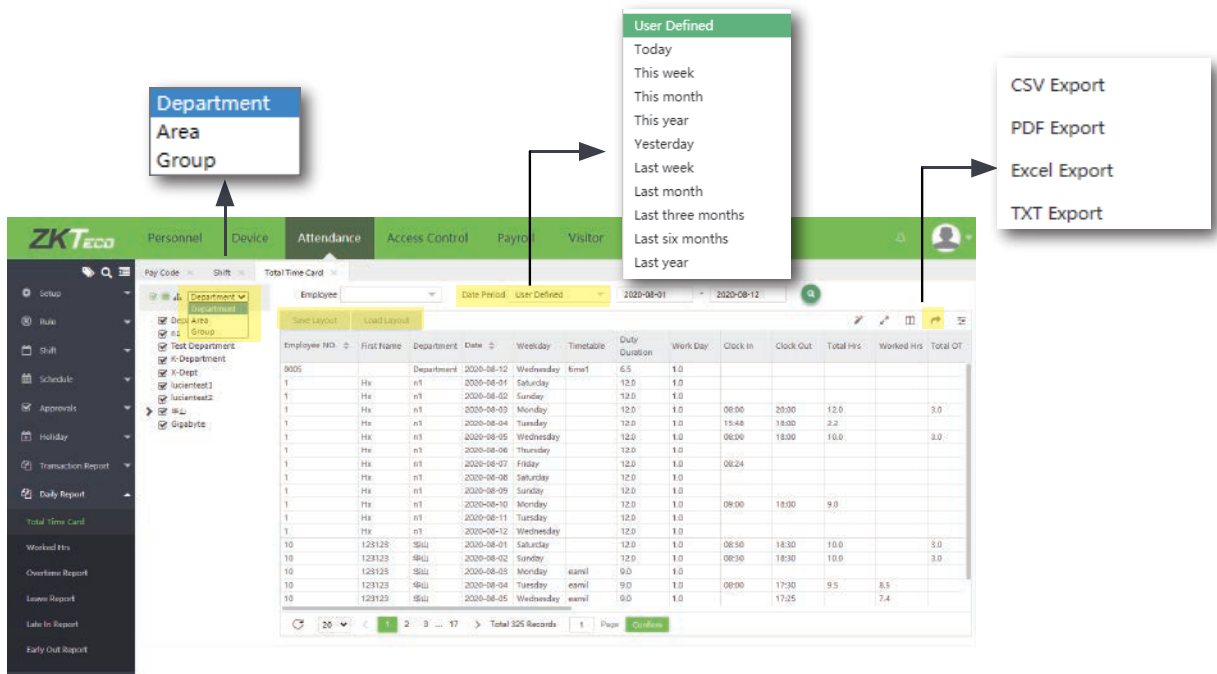

Filtering attendance records by department, area and group.

Users can save filters (excluding the Period) and report fields as a template; next time, users just need to load the template to check the data of related attendance report.

The attendance reports can be exported in CSV, PDF, TXT, and XLS format.

Once there is a new punch record or approved leave, overtime application etc., the software will start attendance calculation automatically.

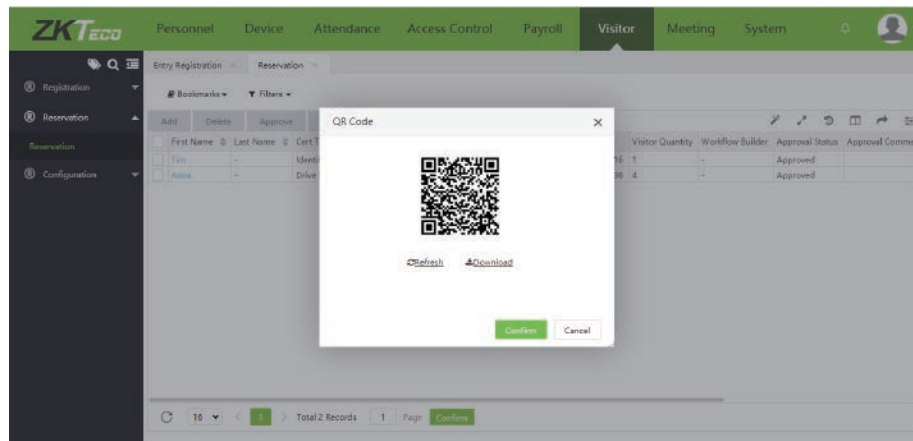

new

Meeting Module

Simple meeting management helps users to manage meeting devices, meeting rooms, meeting applications, meeting attendees and attendance of the attendee.

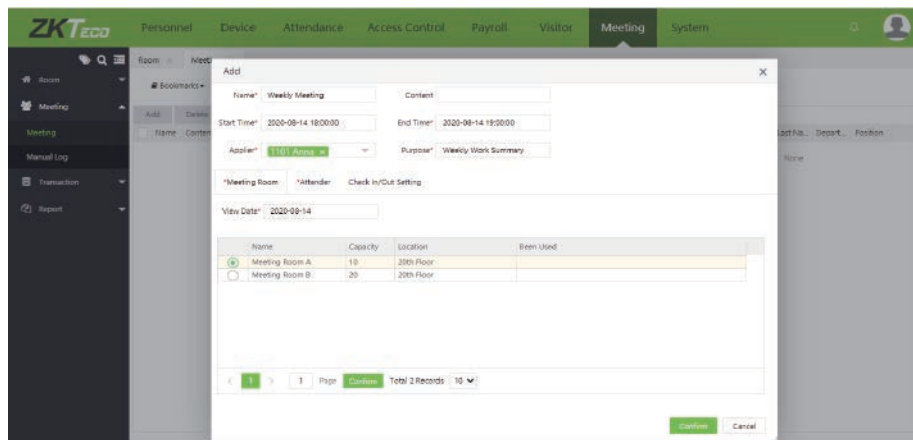

new

Visitor Module (Optional)

Visitor Module is integrated with Access Control Module to provide a way to easily control, record and track visitors. It implements entry registration, exit registration, visitor reservation and so on.

Simple Access Control Module

A simple access control module that can set up the access control settings on the time & attendance devices.

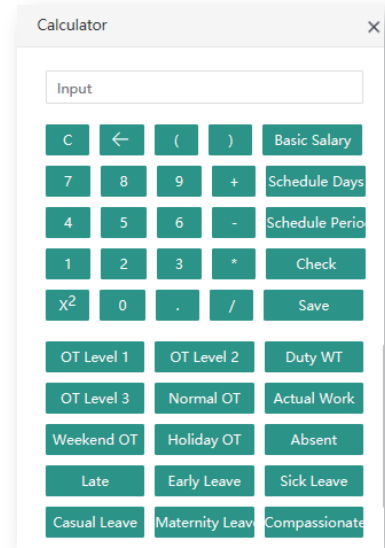

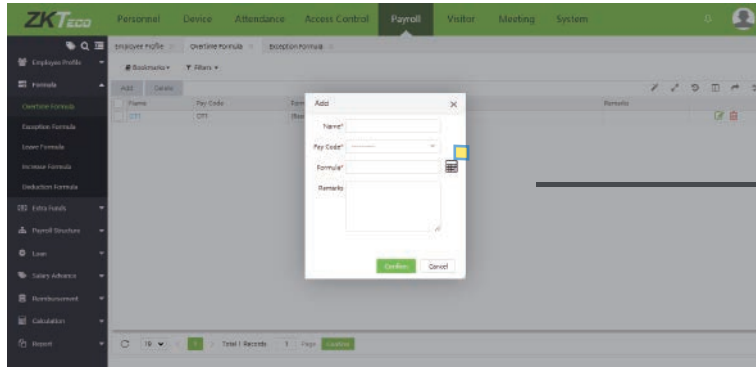

Access Control Menu

Payroll Management

BioTime is a platform designed to organize all the tasks regarding employee payment and generate salary reports. These tasks may include keeping track of hours, calculating salary, and overtime allowance.

Payroll Structure

- Salary Structure
- Salary Increment
- Allowance
- Expense
- Cash Advance
- Payroll Report

Payroll Formula

Users can use either defined or fixed formulas for the payroll calculation.

Payroll Report Export

The payroll and salary reports are calculated easily and can be exported in CSV, PDF, TXT and XLS format. The payment period and wages can be calculated by day, week or month.

Employee ID	First Name	Last Name	Department	Calc Date	Payment Period	Basic Salary	Total Salary	Total Increase	Total Deduction	Increase
1	Hu&		n1	2020-08-01	Monthly	1000	573.81	50	476.19	0
1304	Luke		n11	2020-08-01	Monthly	1000	1000	0	0	0
1101	Anna		Department	2020-08-01	Monthly	1000	1000	0	0	0
10	123123		山	2020-08-01	Monthly	1000	1145.98	145.98	0	0
1303	Jayden		n111	2020-08-01	Monthly	1000	824.56	0	175.44	0

Report Format Customization

BioTime provides some great instance to customize and build your own report format with the selected fields which allow user to gain valuable insights from the tools.

Employee ID	First Name	Last Name	Department	Work Code	Date	Time	Punch State	Correct State
999	Wendy		technician		2019-04-01	08:01	Check In	Check In

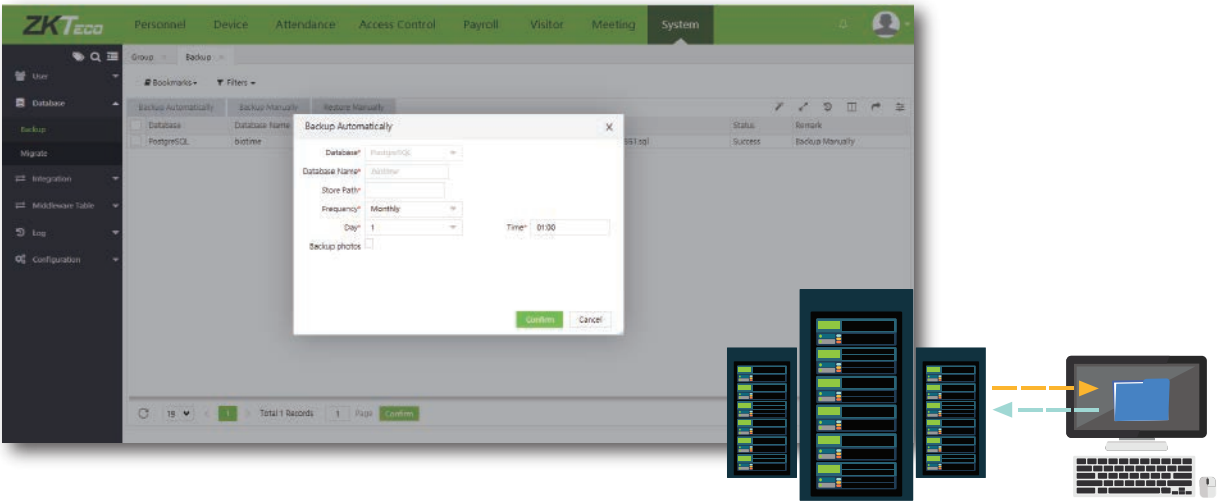

Select the fields for the report layout

The selected items in the filed will be displayed in the report's column

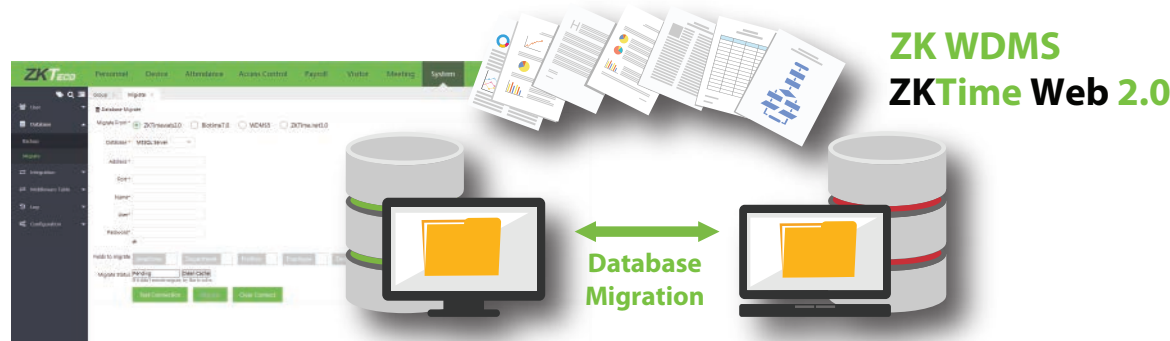

Database Backup and Restore

BioTime now supports database backup function. The user can arrange a backup schedule from the shortest backup per second to the longest per month. It also supports PostgreSQL database restoring.

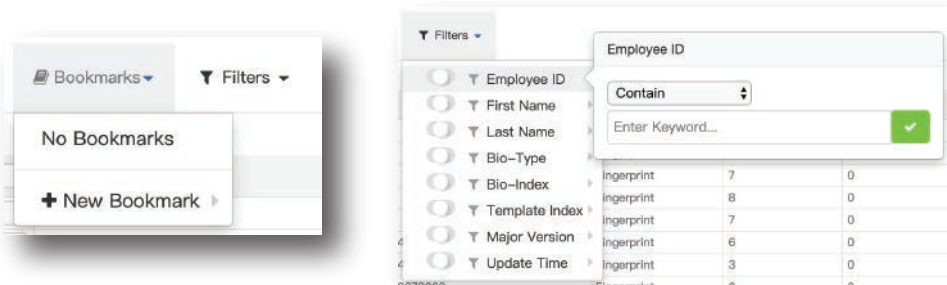

Database Migration

BioTime can support database migration from different ZKTeco previous software such as WDMS5, BioTime and ZKTime.web. Once the setting has completed, the database can be migrated automatically.

New Searching tools

In this version, every single page of the BioTime now has a newly added Bookmarks & Filter function. Administration staff can bookmark relevant pages and use the filter function to obtain necessary information according to their needs.

new

Employee Self-Service

Employees can log in to the platform, check their attendance and payroll records, and make visitor reservations. Employees can apply for leave, logs check, work overtime, and holding meetings, which are to be approved by the manager or admin.

Employees can:

- Apply for leave
- Apply manual punch
- Apply for overtime
- Apply for meeting
- Visitor Reservation
- Self Report Enquiry

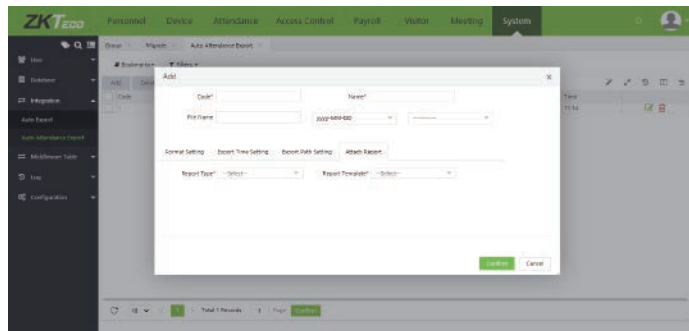

new

Auto Export of Attendance Transactions and Reports

The attendance transactions and reports can be exported to the specific server path, email account, FTP and SFTP servers automatically according to the frequency set.

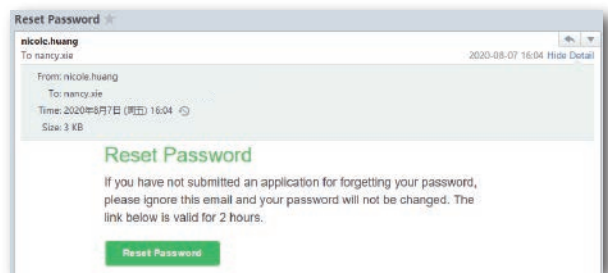

new

Forget Password

When a user has set his/her email address on the platform, and forgets the password, he/she can ask for password reset via the Forgot Password function.

Enter the username and email address

Click [Reset Password] to get a new password

new

Flexible Meeting Room Booking

In order to solve scheduling conflicts caused by the ineffective allocation of limited meeting room, BioTime offers a new module – “Meeting” for meeting room booking and reservation. It provides standardized meeting management process and formulation of audit mechanism, which increase meeting room's utilization rate. It also enables digital management of the meeting room.

new

Clear Availability and Export data

The software of BioTime shows clearly that meeting rooms are available at specific time.

All room booking data can be exported in files to keep your administration details up to date or to use it to invoice your members

new

Visitor Registration

BioTime has a user-friendly and all-in-one personnel registration interface, which can enable administrators to put visitor's information and user's photo on a single page. Once a visitor is registered by the reception, he will be authorized to access to the designated secured area within a range of time.

new

Pre-arrival Registration for Visitor

Visitors can be able to be registered before the meeting date, he will therefore be allowed to go directly to the meeting room without any permission at the period of time.

Visitor Information

Visitor Module Supports Visible Light Facial Recognition

Coming Soon

Administrator can use the photo upload function in the visitor registration page to register visible light facial templates and share with all Visible Light Facial Recognition Terminals.

After successful registration, visitors may automatically have access rights to designated areas or meeting room by facial recognition to save manual workload.

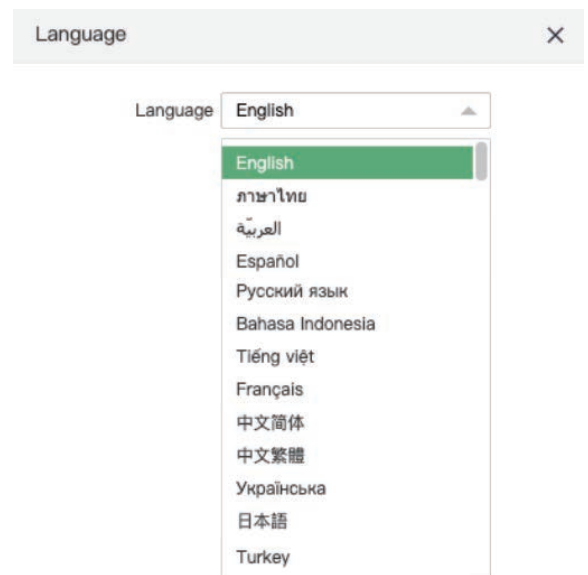

Real-time Data Transmission

The data from the inter-regional terminals can be monitored in real-time, and you can manage attendance, personnel, device, and payroll in one system.

Multiple Languages

BioTime supports multiple languages, including English, Arabic, Spanish, Thai, Russian, Bahasa Indonesia, Vietnamese, Ukrainian, Simplified Chinese, Traditional Chinese, French, Turkish and Japanese.

Integration with Line Application (Selected Location)

BioTime 8.0 is integrated in LINE mobile application to send attendance logs and attendance photos from the software to LINE in real-time. It can also send daily attendance reports to the Team Leader through LINE.

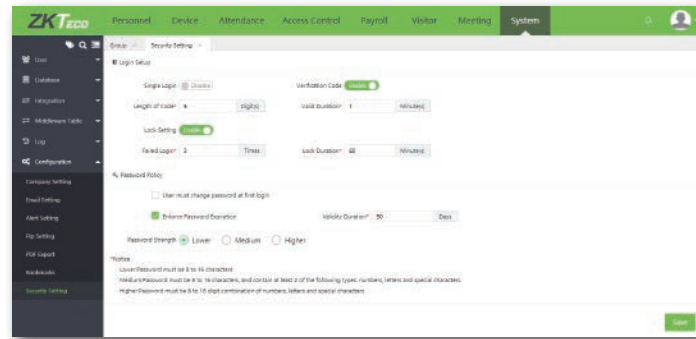

new

Security Settings

Users can set the login verification code, password validity, password strength and such on the platform to enhance the data security of the software.

new

Super User Creation

After installation, the user needs to create a super user first. And then log in to the software as the created super user.

Theme Color Setting

We make it easy to coordinate colors and themes across your BioTime, and users can change the theme or customize colors via the setting of BioTime.

Custom Themes

Custom Color

new

Personnel Validity Periods

While the employment type is set as Temporary or Probation, users can set the validity period of the personnel account. Starting from the expiry date, the personnel account will be deleted from the related device automatically.

new

Daylight Saving Time

Users can set daylight saving time by date/time or by week/day for related devices.

new

Personnel Photo Capture

When HTTPS has been enabled, users can access the software through the HTTPS address, and they can take photos of passers-by using a USB camera or the computer's built-in camera.
